

## Using databases in the Foundation Phase

### Aim

- To develop a greater awareness of databases and how this is mapped to Computing Unlocked and the DCF
- To become more confident in using databases with your pupils
- To use a variety of j2e software suitable for developing database skills in Foundation Phase.

Phase	Foundation Phase
Audience	Foundation Phase teachers
Course date	15 <sup>th</sup> February 2018
Course length	Morning session 9.15 – 12.15
Course cost	£50 per delegate
Venue	Ysgol Bro Edern, Cardiff

### **\*Additional information**

**Please bring your Hwb log in details with you to the course**

This half day course is specifically for Foundation Phase practitioners and will provide delegates with the skills necessary for using databases with their pupils and ideas on how to use databases in the classroom. Practitioners will have opportunity to use a variety of j2e database programs such as pictograms, charts, branching database and j2data. The database skills will be linked to the Computing unlocked ICT scheme of work and the DCF.
